

# FISH-X

Transparent Fisheries for a  
Resilient Ocean

EU-Project no.: 101060879

**Co-funded by  
the European Union**

# PROJECT BACKGROUND

EC call for innovative action on digital transition:

- **Develop new monitoring and control strategies/technologies**
- **Eliminate IUU & promote sustainable fisheries**
- **Advance the digital transition for fisheries MCS**
- **Provide innovative tech solutions**
- **Focus on small-scale and recreational fisheries**

# FISH-X IN A NUTSHELL

*“We believe in a common responsibility to foster sustainable fisheries and marine biodiversity .”*

## OVERCOME KEY CHALLENGES

- ❖ Collection and sharing of fisheries data
- ❖ Data access, management & utilization
- Use of open interoperable technology

# KEY FACTS

PROJECT TIMELINE:  
06/22 - 05/25  
(36 MONTHS)

TOTAL VOLUME:  
6€ MIO

EU-FUNDING:  
4.5 € MIO

7 PROJECT PARTNERS:  
BELGIUM, FRANCE,  
GERMANY, PORTUGAL

AFFILIATES IN:  
ADRIATIC SEA & PORTUGAL

FOCUS AREA:  
MEDITERRANEAN,  
ATLANTIC &  
BALTIC/NORTHERN  
SEA COAST

FOCUS GROUP:  
SMALL-SCALE &  
RECREATIONAL  
FISHERIES

# PROJECT CONSORTIUM

EUTECH

# PROJECT GOALS

- ❖ Fight Illegal, Unreported & Unregulated (IUU) fishing
- ❖ Promote a sustainable use of common natural resources
- ❖ Support honest fishers and help generate fair economic returns
- ❖ Foster synergies between fisheries, authorities, supply chain actors and consumers
- ❖ Advance the digital transition for small-scale and recreational fisheries
- ❖ Contribute to traceable, healthy and sustainable food

# SCOPE

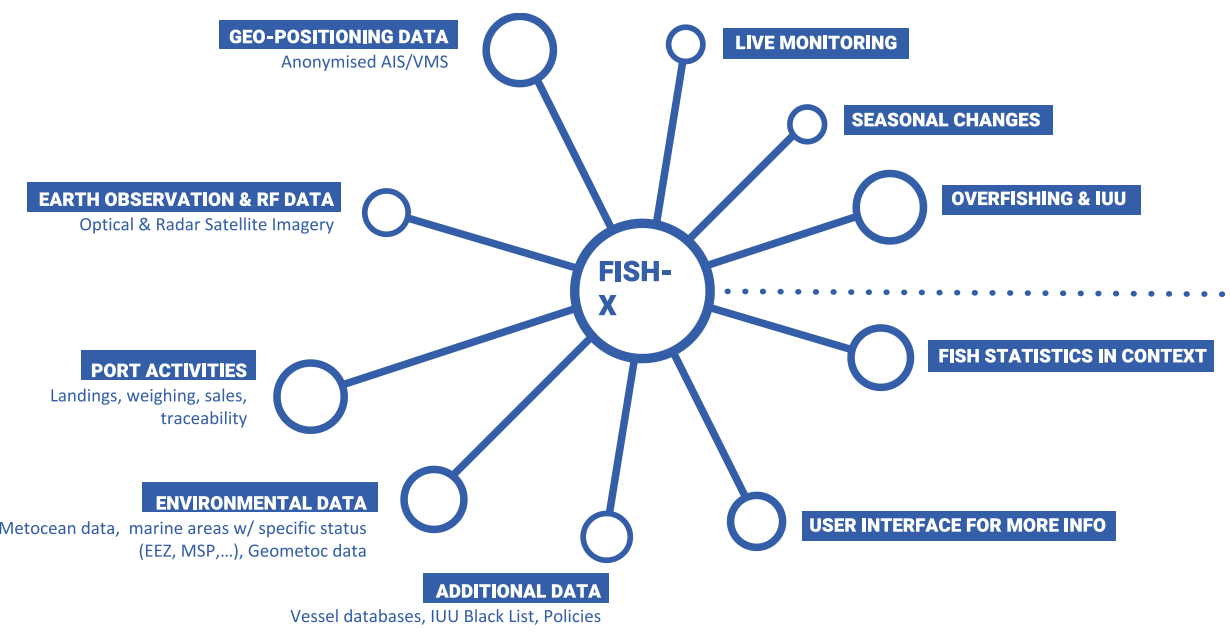

A PARTICIPATORY  
APPROACH

# OUTCOME - IMPACT

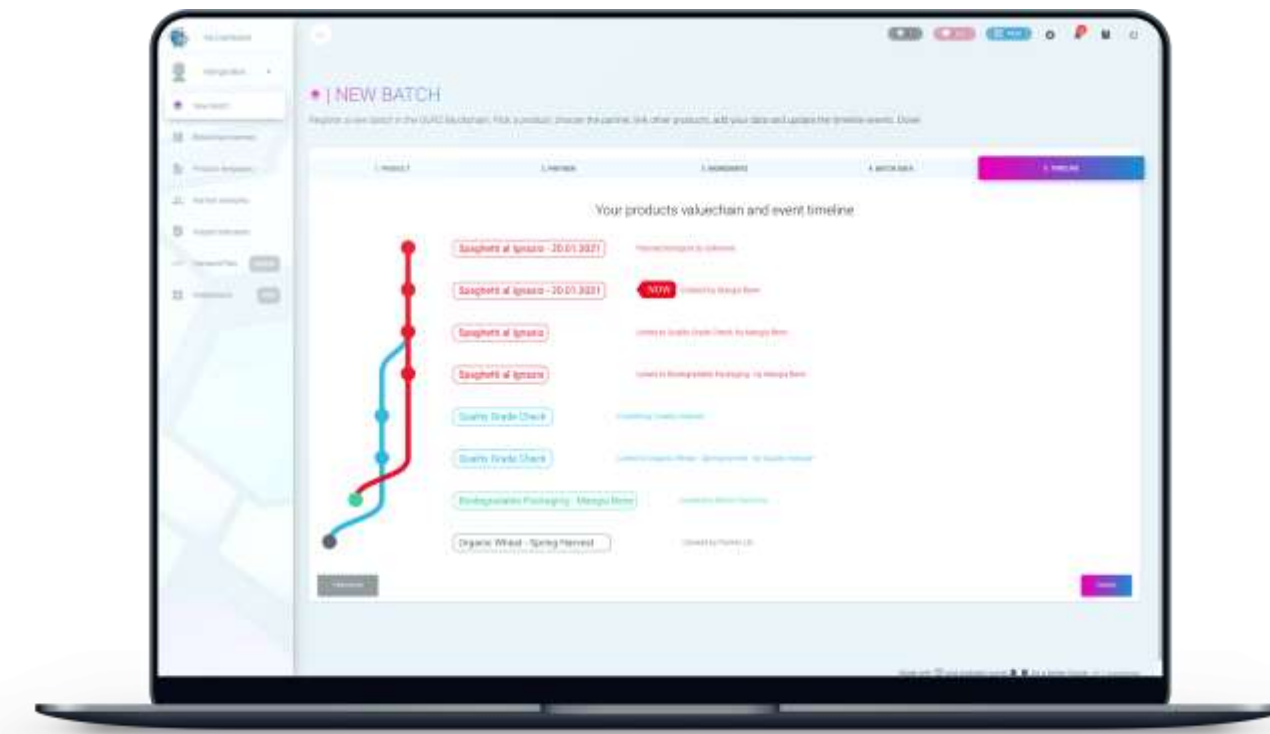

## 1. FISH-X DATA SPACE

## 2. INSIGHT PLATFORM

## 3. TRACEABILITY APP

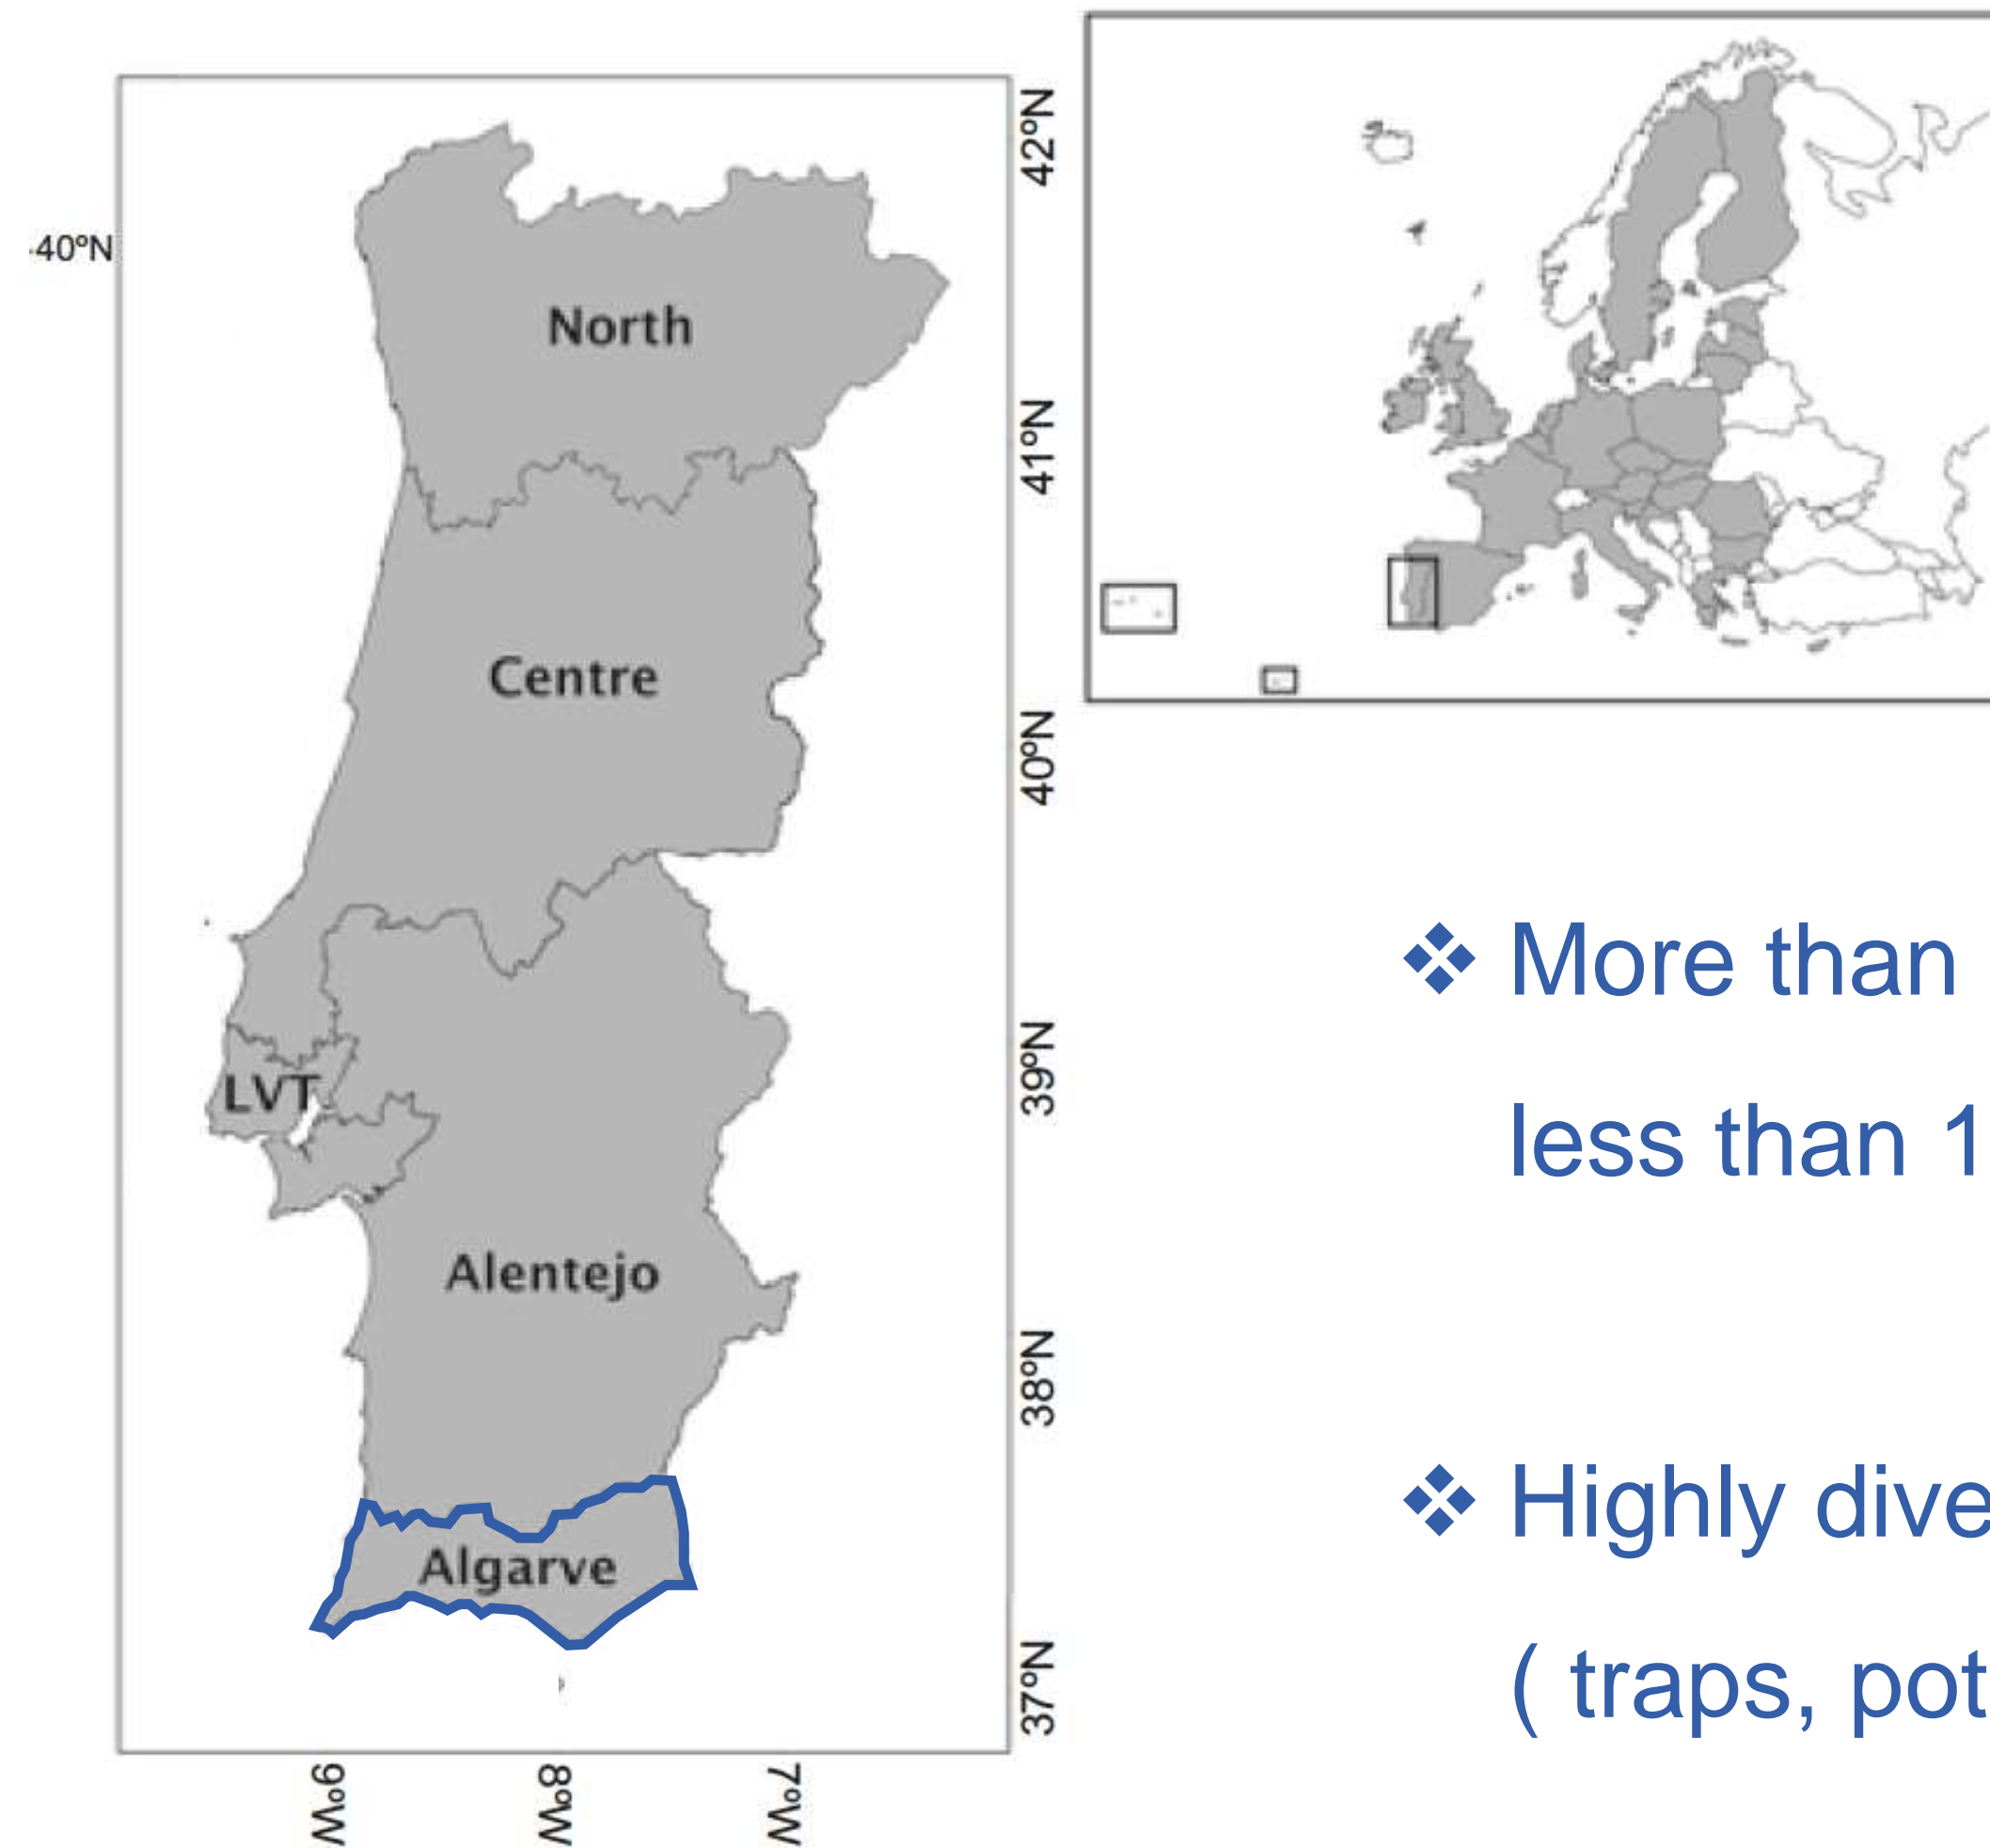

A) USE CASES

B) POLICY RECOMM.

# PORTUGUESE USE CASE

- ❖ More than 80% of the Portuguese fleet has less than 12 meters in length
- ❖ Highly diverse regarding types of fishing gear (traps, pots, longline, purse-seine, nets)

# PORTUGUESE USE CASE

- ❖ **SSF** is of high socioeconomic importance: high ratio of jobs per tonne of seafood landed when compared to industrial fishing
- ❖ There is however a general **lack of information** regarding fishing pressure, fishing areas and seafood traceability for SSF
- ❖ **Objective:** collect data that allows small-scale fishers to protect their fishing grounds from other economic interests and improve the lack of information from the SSF sector

# EU FISHERIES ROADMAP

- ❖ **Objective:** Support a just digital transition of SSF in the EU by 2030
- ❖ **Method:** Consultative approach with key actors
- ❖ **Status:** Preliminary version published (→ see link in chat)
- ❖ **Next steps:** Comprehensive analysis & synthesis to expand and refine preliminary version

# NEXT STEPS FOR 2023

- ❖ Further Stakeholder Engagement and Co-creation activities
- ❖ Starting Use Cases in defined areas (by August)
- ❖ Developing the first prototypes of the MVPs
